

Sierra Nevada, Sierra Nevada Ski Village, 18196, GRX

Some of the best quality apartments in the resort in a great location with WIFI.

These lovely duplex apartments of higher than average quality are set in a privileged location in the central Andalusia square. The resort's main amenities including lift access to the ski slopes are barely a stone's throw away. There are four of these two-bedroom duplexes available. They are all equally well furnished and have slight variations in bed arrangement / bathroom facilities. Whilst we can request a particular layout, the managing agent will provide no guarantees. All have a double bed in one bedroom. One apartment has bunk beds in the second bedroom plus two bathrooms. Two of the others have twin beds in the second bedroom with one bathroom plus an additional second toilet. The fourth also has twin beds in the second bedroom and just one bathroom. All have a sofa-bed in the lounge which converts into two single beds, and all have the additional benefit of a terrace. All other aspects in terms of decoration and furnishings are more or less the same. Furnishings are new with a clear cut modern-rustic style to them. There is plenty of space both for manoeuvring as well as general storage for personal effects. An added bonus is that WIFI is available here. Also, pets (on request) are admitted free of charge.
